EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Alex Spiegler on 02/26/2010.

The application has been amended as follows:

In the claims:

In claim 1, the term "mammalian" is inserted at line 2 prior to the term "pluripotent" and the terminology "mammalian pluripotent" is inserted between the terms "culturing" and "stem" at line 3.

Claim 10 is cancelled.

Claim 19 is amended to depend from claim 1.

In claim 20, the term "mammalian" is inserted at line 2 prior to the term "pluripotent" and the terminology "mammalian pluripotent" is inserted between the terms "culturing" and "stem" at line 3.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance: The resolution of the rejection under 35 USC 112 1st paragraph, Scope of Enablement, was resolved by Examiner-Initiated Interview. The interview was to discuss the breadth of the claims that results from use of the terminology "and/or" with respect to treatment before and/or after the differentiation inducing stage. The Koshimizu declaration filed 01/29/2010 was considered after final but was found to only support the "and" situation. As well, Example 3 of the specification appeared to only support the "and" situation. Applicant pointed out that Figure 9, relevant to the teachings in Example 6, supports both treatment of cells before differentiation induction as well as treatment of cells only after induction of differentiation (page 51). This appeared to be in contradiction with Example 3, Table 1. However, closer analysis of the specification at paragraph [0086] indicates that the data representing Noggin treatment only prior to differentiation induction, wherein appearance of beating EBs is less than the negative control, is because LIF was omitted in the pre-differentiation stage. Thus, it was determined that the specification, by way of Example 6, supports the breadth of the claims and Example 3 is not in contradiction to this.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Valarie Bertoglio whose telephone number is (571) 272-0725. The examiner can normally be reached on Mon-Thurs 5:30-4:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Peter Paras can be reached on (571) 272-4517. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
